Power for Life

Lesson for December 7, 1958

THE CHRISTIAN religion is not and never was simply a set of ideas. Being a Christian is not being an ordinary person who believes some extra things that other people don't.

The Christian religion is not simply a way of living, or a new set of rules for behavior, mostly Don'ts. The Christian is not a person with peculiar habits and nothing else to recommend him.

Dr. Foreman

The Christian religion does include ideas, radical and profound. It does involve a way, a pattern for living, but one which comes from the spirit and intent of love, divine love, rather than from a set of rules carefully memorized.

Besides these, the Christian religion is power—not power "over" but power "for". The Christian religion is supernatural, and this most strikingly in the power Christ gives to enable men to live above their ordinary selves.

Giving A Man Back

The story of Jesus and the man calling himself "Legion"—a military word which might be translated "Regiment"—has some very spectacular features. Aside from these, which have seldom if ever been repeated, the story is typical of what the power of Christ can do for a man.

First of all, Jesus gave the man back to himself. He had not belonged to himself while he was "Legion." He belonged to any one of the countless devils that plagued him. He did not even know his own right name. He could not "call his soul his own." But after Jesus was done with him, he was a man in his right mind, under control, a single person with a single mind. Second, Jesus gave the man back to society. (That particular society, alas, did not want him; they would rather have kept their pigs. But that is another story.) He was now able to live with other people and to take his share of the world's work on his shoulders. If his home town would not have him, there were others that would. And in the third place, Jesus gave the man back to God. His instructions were to go and tell what the Lord had done for him.

A Modern Demon

We do not have demoniacs sitting in cemeteries nowadays, not in the ancient style. But as any minister, lawyer or social worker can tell you, there is a modern demon that gets control of millions of our fellow-citizens and takes away their citizenship, reducing them to helpless slavery. This is the demon of alcoholism. Our forefathers had an uglier word for it: the drink habit. It is the fourth most fatal disease in America; and alone among diseases (if we agree it is a disease) it is entirely preventable, it is one of the few diseases known to man which a man can definitely make up his mind not to have. (But of course he can do this only by being a non-drinker. No drinker can resolve not to become an alcoholic; the very next cocktail party may tip him over the edge.) But any one who knows alcoholics, actual or potential, knows how such people are "not themselves" as the kindly phrase puts it. They are no more masters of themselves than that poor maniac in Galilee driven mad by his own demons.

Modern Miracles

Yet the alcoholic is not beyond rescue. Every week some one of those pitiable people is pulled out of the quicksand and his feet set on a rock, by the power of Christ. Men and women find a super natural power that is great enough to accomplish what good resolutions and many preachments and pleadings have not accomplished. Such a man is given back to himself, back to society and back to God. Cured alcoholics are most likely to stay cured when they devote themselves to helping others as they themselves have been helped. The most effective helper of others is likely to be the one who can say himself, "I know what the Lord has done for me." And this is true not only of alcoholics, but of those who are devil-ridden by other destroyers, pride, envy, lust and all the rest. No evil, no combination of evils, that attack and destroy man, can be a match for the Son of God . . . if only the victim is willing to be rescued!

LOCAL BANK TO EXHIBIT COIN COLLECTION BEGINNING DECEMBER 8 THROUGH 18th.

Appomattox residents who haven't had a face-to-face meeting with a "Fugio" cent, the first authorized U. S. coin, or a Jackson "Hard Times" coin will have a chance to get acquainted with them here December 8 through 13, at the Farmers National Bank, according to T. DeWitt Evans, Cashier.

An exhibit, containing a representative collection of old coins which date back to 1722, has been obtained from the Federal Reserve Bank of Richmond.

The first panel of the display includes types of coins which circulated in the American Colonies and early days of independence — 76 in all, from the 1722 Wood's Coinage farthing and halfpenny through the Civil War tokens of 1864.

Panel one also features Spanish reals which were legal tender in the United States until 1857, as well as two Virginia halfpennies minted in 1773. The first U. S. pattern coin, the "Nova Constellatio," is shown in this panel, along with the "Fugio," whose legend was by Benjamin Franklin. The "Fugio" was the first authorized U. S. coin.

Additional coins in this panel are the Continental period cents which were minted by various states, and types of tokens which have circulated as money in different periods of American history.

The second panel features regular issues of U. S. coins from the large cent pieces of 1794 to the dimes of 1932. Mr. Evans said that one outstanding coin in this panel is the 1865 two cent piece which was the first coin to carry the motto "In God We Trust."

"Probably the most unusual coin in panel three is the exhibit of the Trade Dollar." Mr. Evans said. Originally issued for circulation in the Orient to compete with the Mexican peso, the Trade Dollar was demonetized by Congress in 1887. However, many of them still circulate in the Orient.

In panel four can be found various types of American coins, gold issues, as well as regular and commemorative issues. The familiar "double eagles" are included in this panel.

The last panel in the collection shows U. S. silver commemorative issues, beginning w[ith] Iban Exposition half and continuing thro[ugh] commemorative half ending with the W[orld] Memorial of 1954, [in]cl.

Hixburg

Hixburg, Dec. 1.- Thanksgiving Day was a real family-get-together for many in this neighborhood.

Jim Sears and son, of Lynchburg were dinner guests of his brother and sister-in-law, Mr. and Mrs. Eugene Sears.

Mrs. Edwin Fore was with her son-in-law and daughter, Lt. and Mrs. George Glass, in Dover, Del.

Mr. and Mrs. Ernest Harwood entertained with a dinner for his brother and sister-in-law, the Rev. and Mrs. Sam Harwood, of Victoria, and his sister and niece, Mrs. Edith Hix and Frances, of Richmond.

Watkins McPhillips and family, of Richmond arrived on Wednesday and stayed until Sunday with his parents, Mr. and Mrs. Ed McPmillips.

The Ernest Carsons had their usual full house, cafteria style feast. On hand for the occasion were Ural Carson and family, of Farmville; Elantha Carson and wife, of Covington; Mr. and Mrs. Lester Nuckols. of Dillwyn, Nelson Hix, and family, of Prospect, and Woodrow Carson, of Prospect.

After preaching on Thanksgiving morn, Dr. Twyman Williams made a special trip to Hixburg to extend birthday greeting to Miss Maggie Hix. From there, he hurried on to Lexington to a late dinner with his son and family.

Mrs. John Wilson Hix and Mrs. William Hix honored Miss Maggie Hix with a combined birthday and Thanksgiving dinner in the home of Mrs. John Wilson Hix. The three Hix families were present. Also included were Mr. Sears Hix, of Thomasville, N. C., and Mrs. R. H. Oliver, of Prospect.

After thanks had been given and God's blessing asked on the assemblage, Janet and Jane sang "Happy Birthday." Mrs. William Hix surprised Miss Maggie when she pinned a shoulder bouquet on her dress. That was the only one Miss Maggie had ever received in her 92 years.

It is amazing what an avid interest she takes in what is going on, and the household chores she can and likes to do.

On Tuesday, Maj. W. M. Erwin, Jr., of Wiesbaden, Germany, had a four hours' stop over with the Hixes when en route to N. Y. to board a plane for Frankfurt, Germany.

He had a good word for the American schools over there. The teachers are carefully screened, and only the best are accepted.

The U. S. Government pays them all the year, and furnishes their living quarters. In addition, they have military privileges at the commissary, etc.

Cindy, Maj. Erwin's ten-year-old daughter, has just returned from a week's stay at Black Forest, Germany, where the famous cuckoo clocks are made. The students were accompanied by their teacher and five parents.

Cindy is studying conversational German, which has a good opportunity to learn at home. The Erwins have a full time Fraulein maid, who speaks no English.

Abbie Meredith, who used to live near here, underwent an operation at the Medical College Hospital in Richmond on Nov. 13. She says, "I am getting on fairly well."

SEPTIC TANKS CESSPOOLS GREASE TRAPS

SOLD UNDER MONEY-BACK GUARANTEE

STARTS Septic Tank and Grease Trap Action STOPS Grease Trap and Septic Tank Odors; CLEANS Clogged Drain Field Lines; CLEANS Clogged Garbage Grinders.

The Most Valuable Part of Your Tank Is Gone When You Have It Pumped!

ANAEROBICUL will hasten the seeding off of new septic tanks by establishing action much sooner than will occur by natural processes.

If your septic tank is overloaded, ANAEROBICUL, by speeding action, will prolong the need for placing a new tank in operation. The culture would have to be introduced into the tank periodically, about every three months.

If your digestive system, septic tank or cesspool is working properly, not causing odors draining good—you do not need ANAEROBICUL or any product sold for the aid of digestion.

This is important! When someone calls at your home with a truck and tells your tank is almost full, that is correct. It has to be full to be filtering properly, and the most harmful thing you could do would be to have it pumped, for pumping destroys the most valuable part of your tank. Pumping doesn't clean your lines or eliminate odors and you pay an enormous price for the harm done.

The most harmful substance you can put in your lines to open them are highly caustic chemicals which can be found on the market ranging in price from 10 to 35 cents a can under trade names which most people are familiar with. Proper bacteria reactions open lines and eliminate odors, also keep TANK FILTERING properly.
